

ABOUT OUR PRODUCTS

The Stealth GPS device is an all digital full featured GPS location device with no additional external antennas. This makes our Stealth GPS device the most innovative compact design available in the marketplace.

OUR COVERAGE

With the Stealth GPS device you can locate your vehicle anytime 24/7 day or night. We not only provide you with the latitude and longitude of where your vehicle is, we also provide you with the street address on a map anywhere in North America within a minute of requesting a location on the vehicle.

OUR GOAL

At Enfotrace our primary goal is to be the market leader for GPS products by designing, developing, and delivering an economical high quality product that can meet the needs of multiple applications. Our ability to deliver on this promise has enabled our customers to trust us with their GPS needs.

ABOUT US

Located in Southern California, Enfotrace leadership has over 70 years of combined experience in manufacturing and selling GPS applications. We are solely committed to the advancement of GPS technology in both current and emerging markets. Since its start, Enfotrace has quickly risen to become one of the industry's leading providers of GPS tracking products. Our industry knowledge and experience have allowed us to quickly become one of the most trusted North American manufacturers and distributors of GPS technology today. We are singularly committed to meeting our customers needs.
